

2016 - 2017

Integrated I

Mr. Brzenski -- Room 406

mrbrzenski.com

Required Materials

Spiral Notebook

(1 Per semester)

Pencils, many

Welcome,

My name is Jared Brzenski, and I will be your math teacher for the 2016 - 2017 school year.

Integrated 1 is the advanced class for mathematics in 8th grade. Before common core it was called Algebra. You will be learning about functions, and how they are used in math to model situations and problems. You will learn about linear, quadratic, and exponential functions, and their respective properties. You will also be learning how we can use math to prove some basic rules from geometry.

Many of the class assignments are done on a computer, and access to a computer is highly recommended.

Class Expectations

I must first start off saying it is essential that students come to class prepared. Pencil, paper, and an individual notebook just for math are *HIGHLY* recommended. Many assignments require these items. Math is not just about learning, but also practicing and applying what you have learned. As such, homework is given *at least* 3 times per week. Late homework will be accepted up until the grading period ends.

Attendance is crucial for progression in math. The book cannot make up for missing activities and explanations given by me. All work missed when absent must be made up. It is the responsibility of THE STUDENT to figure out what was missed and to make up those assignments.

The class website is mrbrzenski.com. Please use this to find out about homework assignments and to print out any worksheet you may need. Due to copyright laws, not all worksheets are available for download. Make sure you look at the website so you know what worksheet to ask for. If you do not know, I will refer the student back to the website.

Grading Scale

A = 100 - 90%

B = 89 - 80%

C = 79 - 70%

D = 69 - 60%

F = 59 - 0%

Grade Distribution

Tests/Projects/POWs = 70%

Classwork/Homework = 20%

Participation = 10%

Please fill out and bring back to Mr. Brzenski by Friday September 2, 2016.
